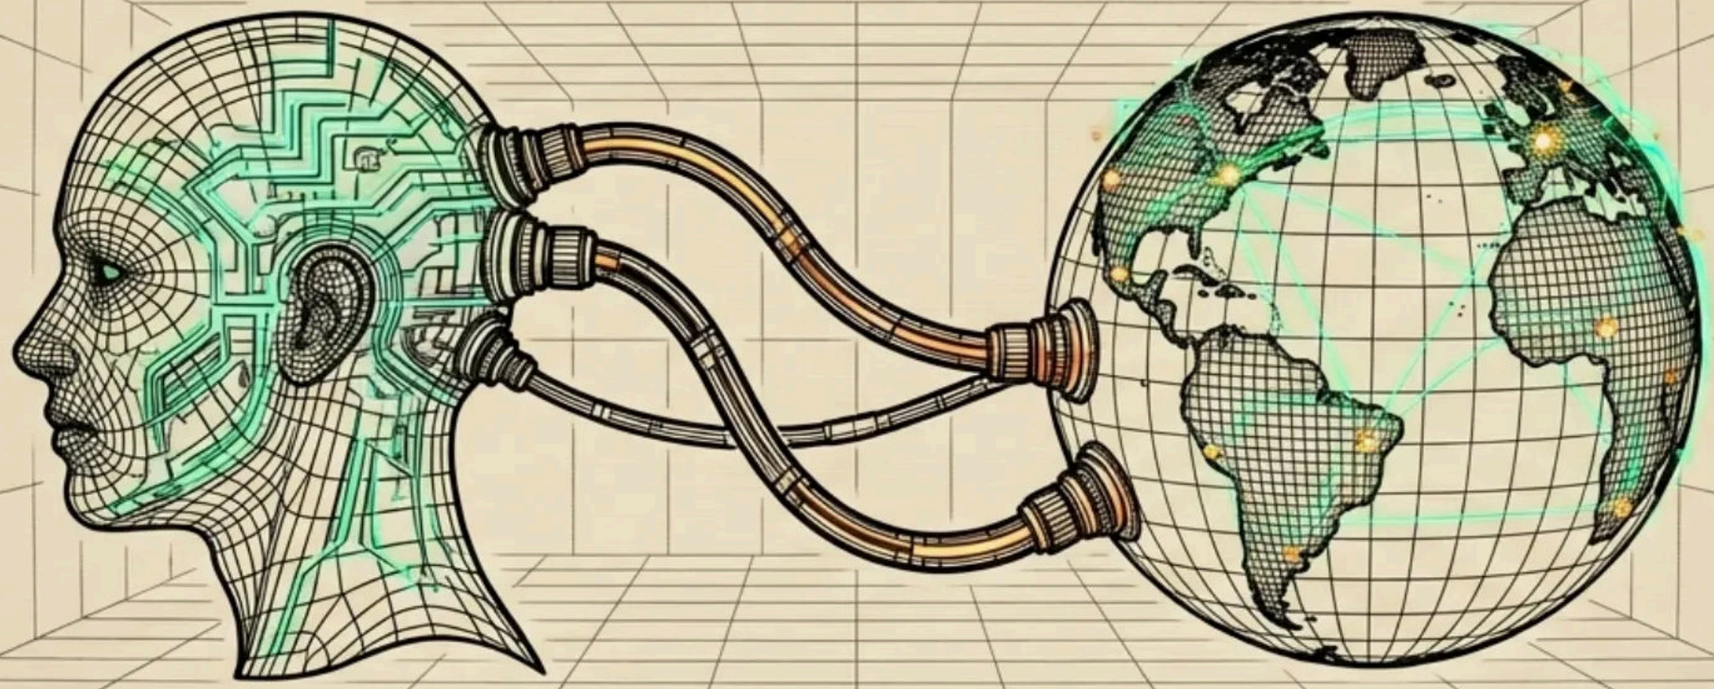
FORETOKEN.AI

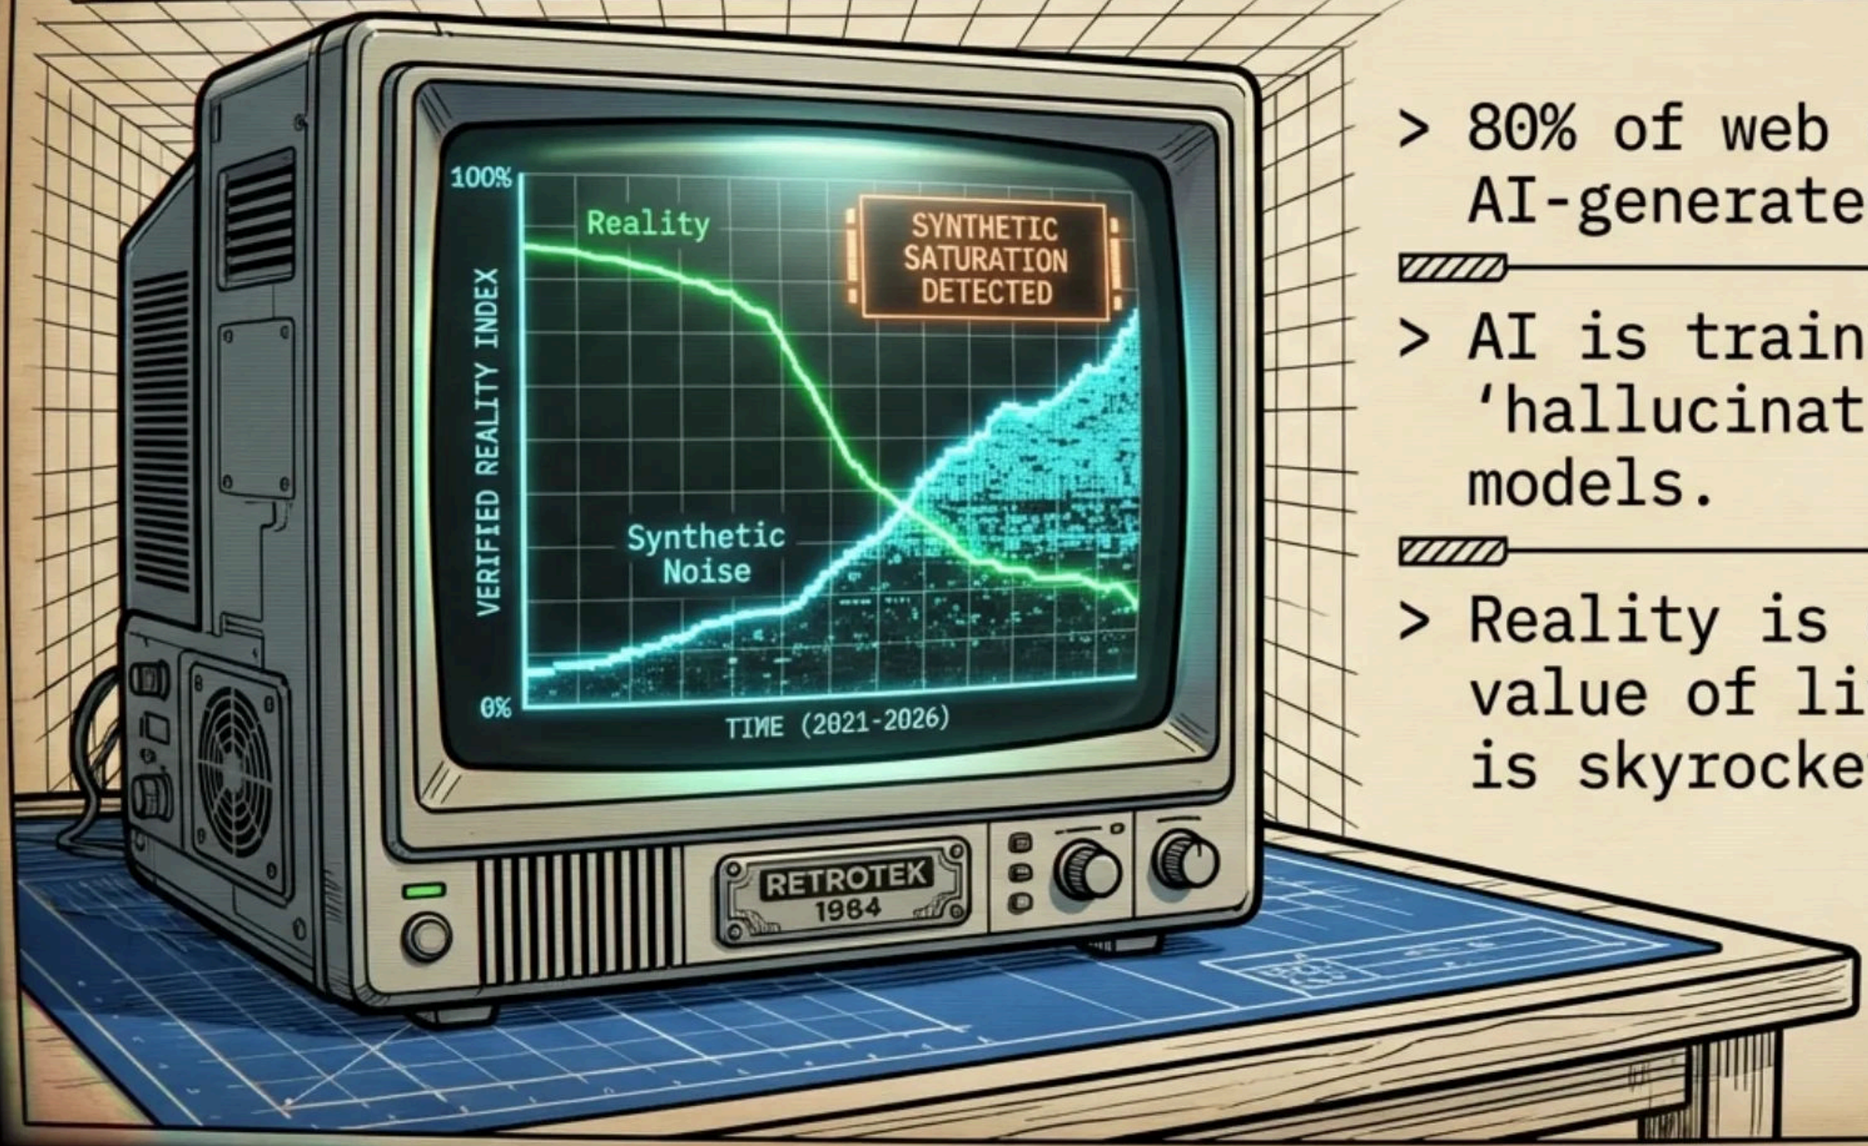
THE HUMAN SIGNAL INFRASTRUCTURE



Your behavior is already being sold without you.
We're giving you back control — and the income from your own data.

SYSTEM STATUS: ONLINE // 2026

CRISIS: MODEL COLLAPSE



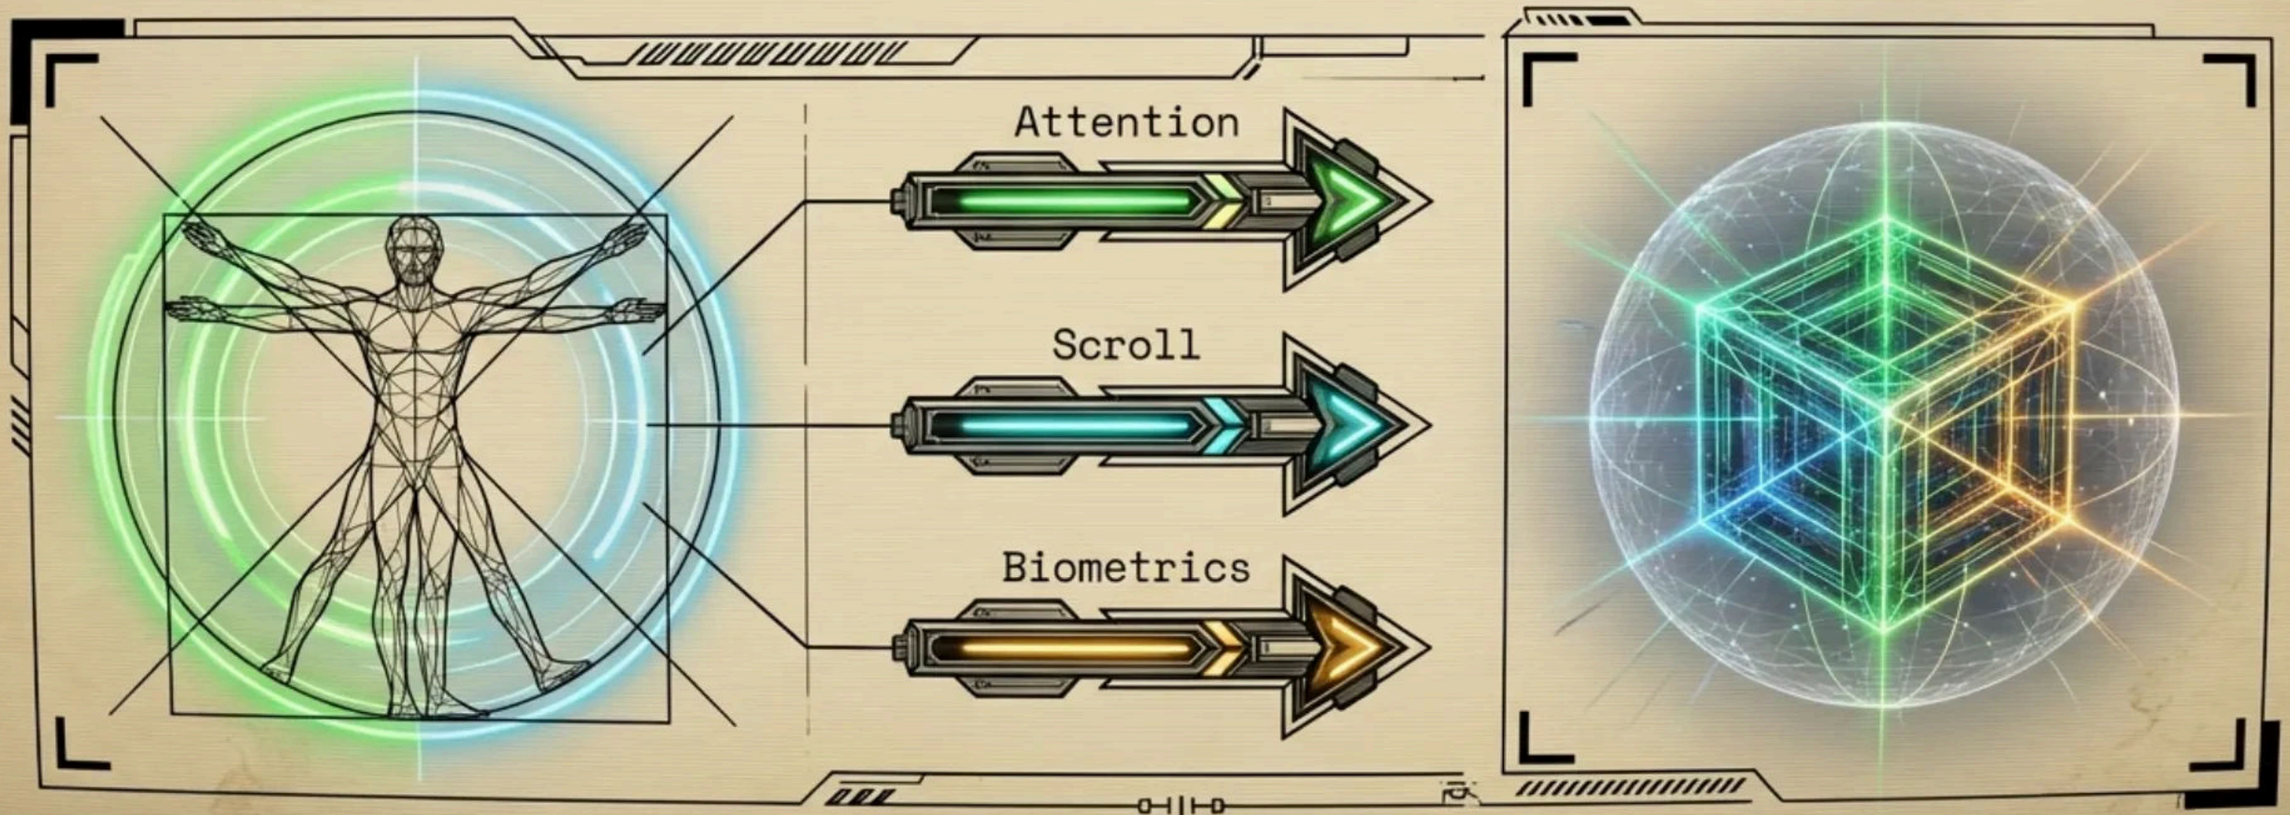
> 80% of web content is AI-generated.

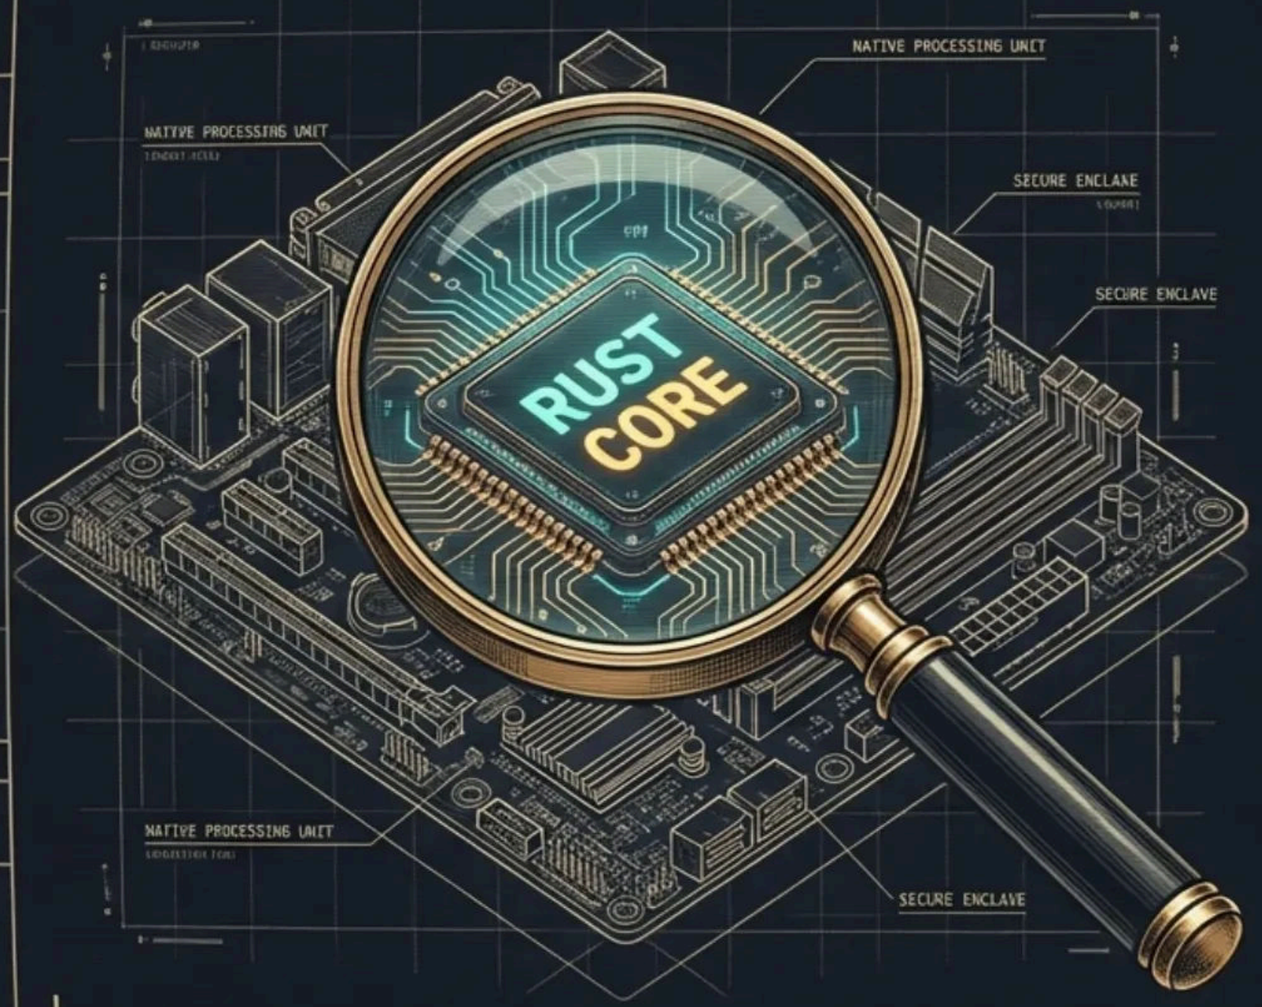
> AI is training on the 'hallucinations' of past models.

> Reality is degrading. The value of live human data is skyrocketing.

INTERNET OF BEHAVIOR (IoB)

In a world of bots, human signal is the new oil for AI.
We digitize the ‘HOW’, not the ‘WHAT’: micro-pauses, scroll cadence, visceral attention. The pure energy of human reaction.





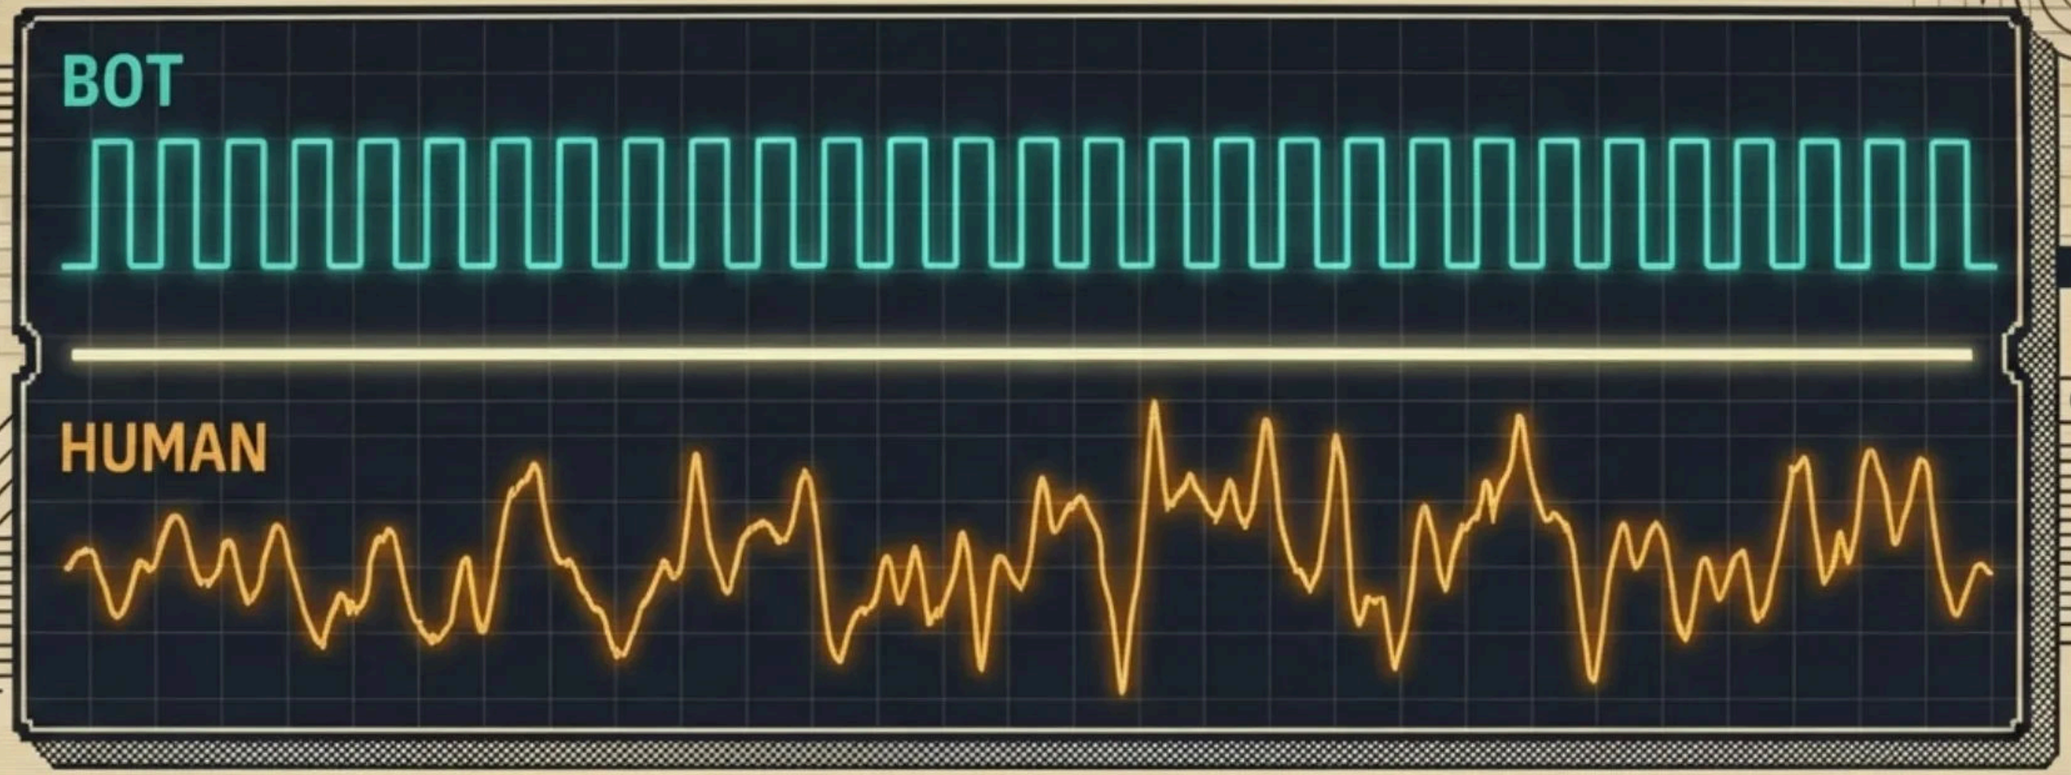
NATIVE CORE ARCHITECTURE

- **Engine:** Rust. Bare-metal machine speed.
- **UI:** Flutter. Unified ecosystem for iOS and Android.
- **Local-First:** 95% of data processing occurs strictly on-device.
- **Zero** cloud leaks.

TEE: ZERO-KNOWLEDGE PROTECTION

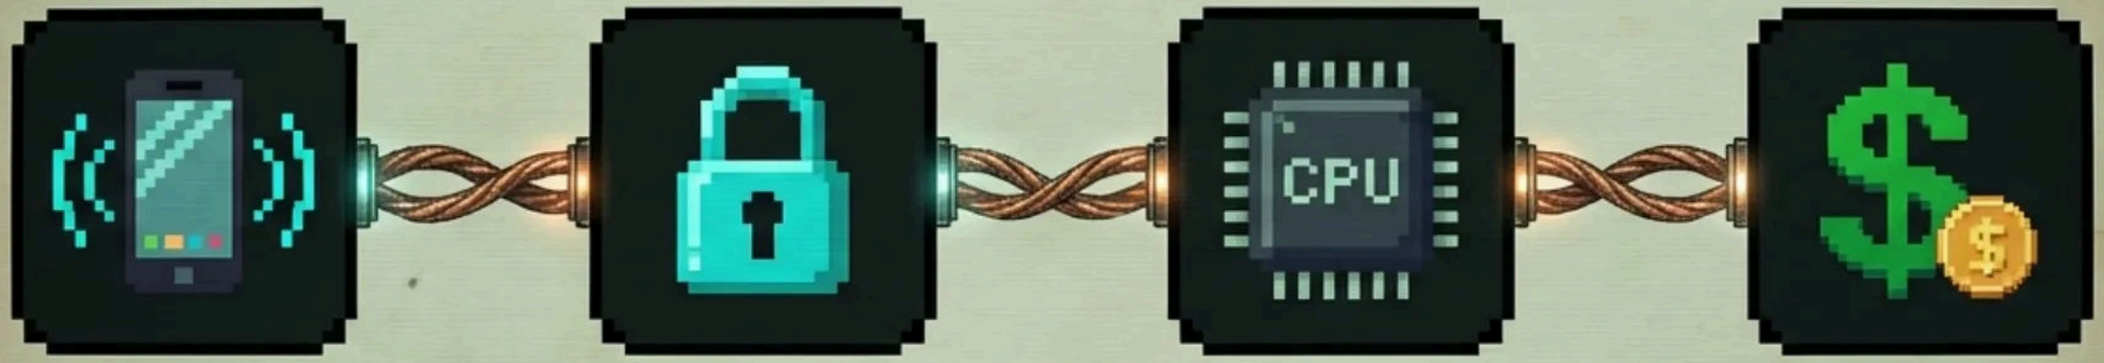
Powered by Intel TDX & Secure Enclaves.
Data is decrypted exclusively inside the CPU for mere microseconds.
Even the operating system remains blind to your secrets.
Military-grade isolation.

PROOF-OF-BEHAVIOR



- Bot vs. Human: Advanced biomechanical and entropy analysis.
- Soulbound Link: Inseparable cryptographic ties to verified real humans.
- We eradicate 99.9% of bot-farms. Delivering only benchmark, pristine data.

HOW IT WORKS



Collect: App captures background signals.

Encrypt: Data is locked in a digital vault.

Analyze: TEE evaluates worth without revealing identity.

Earn: You receive tokens for simply existing.

[MINE. EARN. GROW.]
